## 2017 Summer Dry-Sail Space Application

### A Remittance Form & Membership Form Must Accompany this Form

The location of a boat in the dry sail area will be determined by the following factors:

1. **Frequency of boat use.** Years of using the dry sail area (seniority) will not place your boat in a more convenient location. If a boat is not utilized on a regular basis, it could be moved further back in the dry sail area to give other, more frequently used boats better access to the beach or hoist.
2. **Volunteer work** in the dry sail area and around the club house will also factor into location of a boat. An active member who invests their time and energy into the maintenance and improvement of the club's building and grounds will have this factored into their boat location assignments.

The location assignment is a simple formula, boat use and volunteer work are elements the Rear Commodore uses when assigning a location in the dry sail area. It's simple and fair...boats are meant to be sailed and not stored. This is what dictates boat placement in the dry sail area.

Please remember that the dry sail area is not a storage facility...please keep your boat rigged and in sailable condition. Preference for dry sail assignments is given to those who actively use their boat during the season. Dry sail assignments will not be given to a boat destined for storage and especially if it displaces a boat that will actively be sailed.

### ***WPSA Dinghy Park Rules***

- Summer season begins at Spring Clean-up date, usually early May, and ends at Fall Clean-up date, usually early October. Check the calendar at [www.wetpantssailing.org](http://www.wetpantssailing.org) for exact dates.
- Winter storage season begins at Fall Clean-up date, ends at Spring Clean-up date.
- Boats stored in the yard must be mobile, please maintain your trailer in roadworthy condition. Use hand dollies to move your boat to reduce damage to the asphalt in the yard. Return the dollies when finished using your boat.
- Boats should be in sailable condition with masts raised during Summer. The yard is intended for active use, not long-term storage. If you don't sail frequently, please make arrangements to store your boat off-site.
- All masts must be down and secured to the boat for Winter storage, and boats must be secured to the trailer. Tie off your halyards to reduce nuisance noise for neighbors.
- Please do not use concrete blocks as props or chocks, use wood or plastic chocks, buckets or similar for props.
- Vehicles allowed inside the outer gates for pick-up and drop off only, NO vehicles allowed inside inner gates.
- All boats must have WPSA sticker on boat or trailer, put your name and/or sticker number on trailer, boat, dolly, etc. too. Stickers are available from Rear Commodore.
- If you store your sails/rigs in the sail shed, make sure it is neatly stowed ON RACKS and clearly marked with your name or sticker number.
- Please close gates and lock up and turn off the lights when you leave. Don't assume the "next guy" will do it.
- Please report unsafe conditions to flag officers as soon as possible. Phone numbers are available at [www.wetpantssailing.org](http://www.wetpantssailing.org)
